

SEX, GENDER, & THE IMAGE OF GOD

DR. CHRISTOPHER YUAN
CHRISTOPHERYUAN.COM

1

Are we “sexual”
beings
or “sexed” beings?

4

Our culture now values
altering the objective, physical
reality of our bodies to
accommodate the subjective
impression of ourselves

7

Sex, “Gender,” Norms, Roles

2

What about intersex?
***Anomalies do not
nullify categories***

5

Norms

Masculinity and femininity are
behavioral characteristics
associated with being male or
female (often cultural)

8

Sex

An objective, binary
classification

3

“Gender”

(modern re-definition)
subjective self-perception of
viewing oneself as male or
female

6

Roles

Manhood and womanhood,
biblical distinctions of
being equal and distinct

9

God intends for the
woman to complement
and not duplicate the man

10

So God created man in his own
image,
in the image of God he created
him;
male and female he created
them.

11

Sex is first and foremost a
spiritual and ontological reality
created by God

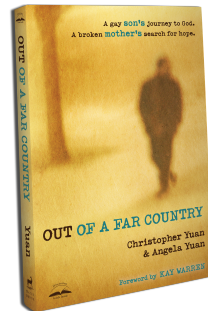

Psychology usurps biology;
what I feel becomes who I am

12

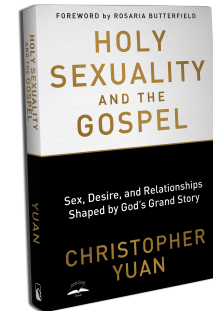

Transgenderism is not exclusively a
battle for what is male and female,
but rather a battle for what is truth

Sola experientia (“experience
alone”) has won out over *sola*
Scriptura (“Scripture alone”)
